MR. HANNA says that "it is an insult and an injustice to the hero of Manila bay to be continually placing his name on the list of prospective candidates for the Presidency." The chances are that the present occupant of the White House is more wrought up than anyone else over the possibility of Dewey as a Presidential candidate. Consequently Mr. Hanna's defense of Dewey is a Grace Hastings last year. Temper trifle far-fetched.

OUT of the 813 votes in the Republican State convention, Attorney General Monnett as a candidate for Governor did not so much as receive the vote of a single delegate, and was 15 hands high, while Temper is the query now arises, if the Republican Attorney General of Ohio, having fought but one of the trusts, was | William A. > IN HIS Akron speech, Gov. Roosevelt said something about the silver dollar being a "48-cent dollar." The same could be said of the gold dollar had it been treated as roughly by Republican legislation as the silver dollar has been treated. The whole trend of this legislation for the last 30 years has been to retire silver from use as money, and this endeavor to put it out of use is what has lowered its market price. No jockey has ever appealed so strongly to public favor as Tod Sloan. He has achieved more than his Special Courage Required of Those Who Brave the Perils of the Ocean. Warm Greeting to Dewer and His Valiant Crew.

[Copyright, Louis Klopsch, 1892.] Not satisfied with his successes in his native country, he went to England and now his fame as a successful horseman is on the tip of every tongue not only in this country and England but in every section of the men on the cruiser Olympia and the liturgy and the honors of war, for the magnificent reception accorded to them, the Rev. Full Speed Ahead. Full justice has been done to the men who at different times fought on the land, but not enough has been said of those who on ship's deck dared and suffered all things. Lord God of the rivers and the sea, help me in this sermon! So, ye admirals, commanders, captains, pilots, gunners, boatswains sailmakers, surgeons, stokers, messmates and seamen of all names, to use your own parlance, we might as well get under way and stand out to sea. Let all landlubbers go ashore.

Full speed now! Four bells! Never since the sea fight of Lepanto where 300 royal galleys, manned by 50,000 warriors, at sunrise, Sept. 6 120,000 men, and in the four hours of battle 8,000 fell on one side and 25,-000 on the other; yea, never since the day when at Actium, 31 years before Christ, Augustus with 260 ships scattered the 220 ships of Mark Antony and gained universal dominion as the prize; yea, since the day when at Salamis the 1.200 gallers of the Persians, manned by 500,000 men, were crushed by Greeks with less than a third of that force; yea, never since the time of Noah, the first ship captain, has the world seen such a miraculous creation as that of the American navy n 1861.

There were about 200 available see men in all the naval stations and recelving ships and here and there an old vessel. Yet orders were given to blockade 3,500 miles of sea coast, greater than the whole coast of Europe, and, besides that, the Ohio, Tennessee, Cumberland, Mississippi and "But I am glad to be reminded of other great rivers, covering an extent my little account. Deeds of Naval Heroes.

I recite today the deeds of our naval heroes, many of whom have not yet received appropriate recognition. "Behold also the ships." As we will never worth until we realize what it cost, I recall the parecited fact that the men of the navy in all our wars ran espe cial risks. They had not only the human weaponry to contend with, but the tides, the fog, the storm. Not like other ships could they run into barbor at the approach of an equinox or a cyclone or a hurricane, because the harbors were hostile. A miscalculation of a tide might leave them on a bar, and a fog might overthrow all the plans of wisest commodore and admiral, and accident might leave them not on the land ready for an ambulance, but at the bottom of the sea, as when in our civil war the torpedo blew up the Tecumseh in Mobile bay, and nearly all on board perished. They were at

tempests as wrecked the Spanish armada might any day swoop upon the squadron. No biding behind the earthworks, no digging in of cavalry spurs at the sound of retreat. Mightler than all the fortresses on all the coasts is the ocean when it bombards a flotilla. In the cemeteries for Federal and Confederate dead are the bodies of most of those who fell on the land. But where those are who went down in the war vessels will not be known bodies of those who dropped from the ratlines into the sea or went down with all on board under the stroke of a gunboat there remained the shark and the whale and the endless tossing of those who fell in the land were remem bered. But how about the graves of those who went down at sea? Nothwere gathered into naval cemeteries of the land, and we every year garland the sod that covers them. But who front, bombs threatening from above tornedoes threatening from beneath and the ocean with its reputation of 6.000 years for shipwreck, lying all around, am I not right in saying it required a special courage for the navy in 1863 as it required especial courage

Oh, men of the American navy returned from Manila and Santiago and Havana, as well as those who are survivors of the naval conflicts of 1863 and 1864, men of the western gulf squadron, of the eastern gulf squadron, of the south Atlantic squadron, of the north Atlantic squadron, of the Mississippi squadron, of the Pacific squadron, of the West India squadron and of the Potomac flotilla, hear our thanks!
